

ALTERSPACE

Applications

The concept, the place where you can be when you are using the TDVisor, a place where you can be, work, play, watch movies, interact, surf the internet and even have a videoconference in true 3D by using TDVision technology.

Use cases:

Fixed animation (camera travel)

Interactive environment

Pre-set animation with 6 degrees of freedom and interactivenss

You can even have 3D videos running inside the 3D Alterspace environment, practically the next generation of user interface is here.

Ideal for entertainment, education, demonstrations, training sessions, product development, architecture and industrial design, possibilities are infinite...

Immerse yourself in this interactive environment, explore your creation in true 3D and define travel paths for automated viewing.

Design your world and live it, be anywhere, do anything, anytime.
